Hello dear subscribers

Well, we have been warned by a number of metaphysical channels that the intensity of transformational change is accelerating and boy, are we ever experiencing that! From the incredibly powerful full moon in May, through the stillness of the solstice and into the middle of a series of very significant eclipses up to August 5/6, we are being challenged to our core to transmute all that has no place in the new energy space we are moving in to. In fact, it is not even so much that we are moving into it – we are actually co-creating it as part of our individual and collective transformation.

As part of this process, the events both in our internal and external world are becoming stranger and weirder – and definitely more transparent. This is a time of no more secrets and no more lies.....the extent of the control over human hearts and minds is releasing its grip as the stories of corruption, greed and deceit hit the headlines in waves and many are saying ‘no more’. Change is upon us and that change is building in momentum, both internally and externally.

Over the past few months I have found myself moving through some interesting phases in the transformation process that began with a very deep, intense heart opening in April. Although catalysed by external events, it was preceded by stages of heart activation that have been evident over a period of 18 months through working within the diamond energy field. Through periods of integration, facing & clearing of more shadow aspects, brain mush, deep stillness and peace, to “take me off this planet”, then more stillness and clarity of long held patterns that are shifting, along with deep physical vibrations – the past few months have been a roller coaster ride of emotions flowing and a more intense, deeper heart energy moving through them all.

Many of you have been experiencing the environmental energies in your own ways, and it is important to know that all is well and exactly as it is meant to be. Nothing can stop this evolutionary journey we are all on, and those of us feeling the effects more intensely are literally clearing the way for others to take the journey. Our world is moving back into a place of the heart, and this requires fully balancing the masculine and feminine within.

Over the years we have read much about the return of the goddess and have worked on strengthening the sacred feminine. Now our challenge is to bring that divine quality into the masculine aspect of ourselves, bridging and merging both – only through this can we truly know the deepest qualities of the heart and the vast expansiveness and change that this brings.

Earlier in July through one of the quieter periods of stillness, I was in meditation and asking my ‘SELF’ for understanding of what was happening and was told to ‘be still because the internal transformations are not yet complete’. I was then shown the most incredible bright white light emanating from my right arm along with a cluster of absolutely crystalline, interlocking diamonds interpenetrating my energy field and physical body on the right hand side. The experience of these was that they were incredibly strong and ‘solid’. From this I understood a number of things :

- we literally are becoming more crystalline in nature, although not perhaps in the way that is generally understood.
- Being on the right hand side, this indicated for me a purification and strengthening of my own masculine energy
- I once again experienced the profound transformative effect of the diamond or octahedral energy field in re-organising my being in unexpected and yet magnificent ways.

So much is being spoken of now about the “Diamond Light”, which is a quality of consciousness that is being brought through to our world. The essence of the diamond light itself is feminine in nature, while the Diamond Light Grid represents the masculine structure enabling us to more fully integrate and utilise this new and evolutionary energy. The balancing of divine masculine and

feminine and true power centred in the heart. This is the ultimate effect of the octahedron or diamond at the deepest level (please take a look at the article I have found for you called “Sacred Gaiametry” by Jim Albani further on in this newsletter for another perspective on the geometric significance of the diamond).

Within this new structure, the diamond light codes are able to engage with our DNA bringing in subtle frequencies that facilitate the switching on or off of gene expression. Leading biologists know that DNA activity is regulated by the electromagnetic environment and signals. The diamond light codes speak to our cellular structure at the deepest level, aligning us with new frequencies through their patterns and colours and helping us to shift and reprogram all that is held in our blueprint.

With this in mind, I have created a special meditation for you (available as a download only), specifically aimed at supporting you with the re-programming of your DNA blueprint. The focus of the meditation is on whatever we hold that blocks our experience of true SELF and our ability to create an abundant life in all ways. This is supported by a Diamond Light Code Transmission called “Creating Abundance”, that works at a subtle and subconscious level to imprint your energy fields and DNA with the frequencies to restore your manifesting power. There is a very special package deal for both, so make sure you visit <http://www.diamondlightworld.com/onlinepromo.html> for access to this special offer. Both products are also available to purchase individually via the online shop <http://www.diamondlightworld.com/onlineshop2.html>

SPECIAL NOTE RE WORKSHOPS :

The workshop schedule has now changed for the rest of the year as result of inner guidance through the past 2 months. The number and location of workshops is now limited, and the only Diamond Light Grid Level 1 workshop up here in the north will be on 15/16 August in Sandsend, near Whitby.

There will be a single Antanea Technique workshop in Alderley Edge, Cheshire at the end of August. This is a very special place steeped in the magic and mystery of Merlin Energy so promises to be an amazing workshop. Residential options are available, and the venue is a 2 hr train journey from London, as well as easily accessible by road.

In September we have the one-day introduction to the diamond light grid , “In the Heart of the Diamond” in Sale, Cheshire (for those of you who couldn’t make the previous one), as well as in Farnham in Surrey, along with The Energies of Transformation which provides deeper insight into the many levels and impacts of the transformation process.

In October, South Africa is beckoning again, so for those of you who couldn’t make the last series of workshops there, please note the prospective dates and locations.

Also, please note that there are dates in November for a Level 1 and Level 2 Diamond Light workshop running over 4 consecutive days, for those of you who have enquired about this possibility. These will be held between 9-12 November in Somerset, England (the Somerset/Wiltshire border) an incredible area of ancient and new energies working in harmony.

Online payment/booking options for all workshops have been updated on the website, so please visit <http://www.diamondlightworld.com/wdtes.html> for more information, or email julie@rezonate.co.uk for more details.

The Home Study Program, "A Call to Presence" is also available as a downloadable option for those of you wishing to experience the diamond light grid but unable to travel. It is packed with valuable information and energy exercises to support your evolutionary journey.

As always, I hope you will enjoy the articles and information selected for you this month, and I wish you the unfoldment of great joy and peace through the next full moon lunar eclipse as August beckons.

Thank you all for your wonderful and continued support of Diamond Light World.

1. 2009 Cancer Super New Moon and Total Solar Eclipse 21 July 2009 at 10.35pm EDT – 22 July 2009 2.35am GMT

by Dale Osadchuk

You are an ancient person living in harmony with the Earth Mother. You have no concept of linear time. When Grandfather Sun rises, you rise from sleep and when he sets you prepare for the quiet time. Everything unfolds in its own rhythm and you are in tune with all that is.

On this day as Grand Father Sun rises you sense something different. You do not know what it is but something is happening out of the ordinary. You have been taught by the Shamans to pay attention to your inner knowing. They have also taught you to never look at Grandfather Sun directly for it will destroy your ability to see.

As you look at what is happening in a magic mirror that you have created you see a slice being eaten out of the Sun. It grows larger and larger until it covers the surface of the Sun. All turns dark at this point. The flowers, plants and animals go back to sleep. Silence is the only sound.

You are not afraid for you know Sister Moon is speaking to you of the Mysteries. Those things that cannot be understood with the mind but only with the Spirit. The message is always listen to your inner knowing and follow its guidance.

Sister Moon creates a radiant circle around her as she joins with Grandfather Sun. Its brilliance would blind you if you looked directly at it. You are wise enough to know to take this to your inner sacred place and allow it to support your journey to knowing who you really are. You are an ancient wise one.

July 20.2009

I think the key sentence I am going to use for this Super Moon energy is "I DON'T BELIEVE THIS!!!" Here is my story. It is 20 July 2009 and the Cancer New Moon article is almost finished. I was going to e-mail it this afternoon, early for a change. Well the Universe and, I believe the Moon, had other ideas. So I have to find a new way to share the information with all of you. Actually I have to rewrite the article. That is so appropriate for the theme of the Total Solar Eclipse we will be experiencing.

As we have mentioned before Eclipses are considered to be families of certain Saros Series. This Eclipse (and that of the July 07 and August 05 Lunar Eclipses) is Saros Series 11 South. The theme is "this family of Eclipses is concerned with the need to make sudden reforms. Old ideas or methods will fail and new systems are required to deal with events brought on by the Eclipse. As a consequence the person will need to think of new ways of handling the issues." (Predictive Astrology by Bernadette Brady)

Here is the sequence of events I experienced today (July 20). First our phone and internet system shut down for about three hours. I decided to use that time to print out some chart data I need for later this week on the computer I use for my astrology work including the New Moon articles. The printer would not read that it had paper in it so I had to input all the chart information on this computer. As I pressed "print" I got the message that this printer was low on ink. I was able to process the charts before the ink ran out. I just prayed for success.

Finally the phone and internet came back on line so I could now transfer the New

Moon article to this computer and send it out. Not so. When I went to do that, both the keyboard and the “mouse” were not working. There was nothing I could do to retrieve the article. That is when the thought “I don’t believe this” jumped out at me. I was feeling frustrated and defeated. Then I remembered the Eclipse theme and resigned myself to rewriting the article. Actually all the events created a good story to illustrate the need for reform that the Eclipse is activating. A new astrology computer is on the list as number one. And oh yes, as I was talking to a friend describing my experience, the digital box for cable completely shut off by its self.

The sign of Cancer is not usually associated with telecommunications. In a psychological sense it is all about emotional reaction. Telecommunication is the domain of Mercury and Gemini (writing, telephones, communication, and e-mail) and Uranus and Aquarius (computers and the World Wide Web). Both Mars and Venus are in Gemini right now but they are not interacting with the other planets today. But wait Venus in Gemini (creative writing and expression) is approaching a square (events forcing a new action) to Saturn (blocks, delays and limitation) in Virgo (systems). That could be the culprit but neither planet is aspecting my personal astrology yet. Neither are Uranus and Aquarius.

It has to be the Super Moon and approaching Total Eclipse. I will be receiving a square to my natal Venus (creative talents and resources) in Aries (new beginnings) at this eclipse. Today’s events are telling me to be adaptable and flexible and just embrace a new way of doing things. That is the theme for all of us for the next six months.

Cancer is the sign of emotions, family and ancestral line. It is connected most powerfully to nurturing, nourishing and the mother. Since the Moon (mother) is in Cancer at this Eclipse that will be the focus for most of us, our relationship to the mothering energies. We must be careful about how we play that part. When it is time to let our children sprout their wings and fly we must find the inner strength to allow and support that. If we are playing mother to our partners it is now time to transform that tendency and find new ways of relating. Remember this Eclipse is about finding new ways. Remember this Eclipse is about the need to make sudden reforms when the old ways of doing things fail.

Cancer is also the sign of our Spiritual Destiny/Soul Purpose activation. For some of you this Eclipse will create a need to complete the family karma and free your self so you can begin to give your gift to the Universe. We need you NOW!!! So please work with the energies so you can move from the personal to the Universal.

This is such a powerful New Moon. It is a Super Moon (closest to Earth) a Total Solar Eclipse (totality 6 minutes and 39 seconds) and a Blue Moon of transformation. I hope you embrace all the opportunities it is bringing to you.

Blessings Dale

The computer issues have been resolved so I do not have to go out tomorrow to purchase a new computer I can not at this time afford. My wonderful daughter who is computer intuitive but not trained rescued my data from my “astrology computer” so I can share the Moon phases with you. Bless those people in your life who are gifts to you.

2. The Silent Revolution

- the unknown blogger

On the surface of the world right now there is war and violence and things seem dark.

But calmly and quietly, at the same time,
something else is happening underground
An inner revolution is taking place
and certain individuals are being called to a higher light.

It is a silent revolution.
From the inside out. From the ground up.
This is a Global operation.
A Spiritual Conspiracy.

There are sleeper cells in every nation on the planet.
You won't see us on the T.V.
You won't read about us in the newspaper
You won't hear about us on the radio
We don't seek any glory
We don't wear any uniform
We come in all shapes and sizes, colors and styles.

Most of us work anonymously
We are quietly working behind the scenes
in every country and culture of the world
Cities big and small, mountains and valleys,
in farms and villages, tribes and remote islands.

You could pass by one of us on the street
and not even notice
We go undercover
We remain behind the scenes.

It is of no concern to us who takes the final credit
But simply that the work gets done.

Occasionally we spot each other in the street
We give a quiet nod and continue on our way
During the day many of us pretend we have "normal jobs"
But behind the false storefront at night
is where the real work takes a place.

Some call us the Conscious Army
We are slowly creating a new world
with the power of our minds and hearts
We follow, with passion and joy.

Our orders come from the Central Spiritual Intelligence
We are dropping soft, secret love bombs when no one is looking

Poems ~ Hugs ~ Music ~ Photography ~ Movies ~ Kind words ~
Smiles ~ Meditation and prayer ~ Dance - Art ~ Social activism ~
Websites - Blogs ~ Random acts of kindness...

We each express ourselves in our own unique ways
with our own unique gifts and talents,

Be the change you want to see in the world
That is the motto that fills our hearts
We know it is the only way real transformation takes place.

We know that quietly and humbly we have the
power of all the oceans combined
Our work is slow and meticulous

Like the formation of mountains
 It is not even visible at first glance
 And yet with it entire tectonic plates
 shall be moved in the centuries to come

Love is the new religion of the 21st century
 You don't have to be a highly educated person
 Or have any exceptional knowledge to understand it
 It comes from the intelligence of the heart
 Embedded in the timeless evolutionary pulse of all
 human beings.

Be the change you want to see in the world
 Nobody else can do it for you.

We are now recruiting
 Perhaps you will join us
 Or already have.
 All are welcome
 The door is open

3. THE DIVINE PLAN IS UNFOLDING STEP BY STEP

by Patricia Diane Cota-Robles

Note from Julie :_Patricia gives us a different perspective on the implications of the Solstice energy this year as well as the eclipse that we experienced on 7 July. I had been very aware of the intense heart energy on the 7/7 & her interpretation provides a deeper meaning framework for understanding it. Worth reading through..

<http://eraofpeace.org>

Celestial and planetary events are unfolding in perfect synchronicity. This is in preparation for the unprecedented influx of Light that will occur the week of August 15-20, 2009. This facet of the plan is very complex and sometimes confusing, but all is in Divine Order. It is important to note that what we see on the surface is a minuscule fraction of what is actually taking place.

During the Solstice, June 21, 2009, our Central Sun, our physical Sun, and our entire Solar System experienced a quantum shift which resulted in raising the energy, vibration, and consciousness of every particle and wave of Life evolving within this system. This increased frequency of 5th-Dimensional Solar Light activated the pre-encoded memories within Humanity's RNA and DNA structures. These newly activated codes reflect the full potential of the Divine Masculine and the Divine Feminine within every Human Being.

It is interesting to observe that whenever it is necessary for the masses of Humanity to

be involved with the Divine Plan on a more conscious level, something takes place that draws the attention of people around the globe. The outer-world event always empowers whatever is needed at the time. Humanity's focused attention creates a cup of collective consciousness through which the Light of God can flow to accelerate the fulfillment of that particular facet the Divine Plan.

On June 25, 2009, outer-world events took place that focused the attention of people around the world on two celebrities. First was the death of Farrah Fawcett, a courageous woman whose valiant fight against cancer inspired and uplifted the hearts and minds of people everywhere. In the face of all adversity she was strong, determined, and powerful. As the collective cup of Humanity's consciousness focused on these qualities, which are aspects of the Divine Feminine that have often been suppressed, a powerful healing occurred within every person on Earth.

A few hours later, we learned of the shocking death of Michael Jackson. This event was far more complex and drew the attention of the world in very polarizing ways. Some people focused solely on the destructive things that Michael had been accused of in his life. Others focused solely on his iconic status as the King of Pop.

The reality is that Michael's life reflected the best and the worst of both worlds. The negative things that he was accused of reflect the degradation of the fallen masculine, and the positive things he did in his life reflect the highest aspects of the Divine Masculine within Humanity. Consequently, in this instance, the collective cup of Humanity's consciousness held the full spectrum of masculine energies, both fallen and Divine.

On July 4th, a day dedicated to Freedom and Independence in the USA, a powerful influx of the Violet Flame bathed the Earth. Through the unified efforts of Saint Germain and Lightworkers around the world, the Violet Flame blazed through the collective cup of Humanity's consciousness and transmuted as much of the surfacing energy associated with the fallen masculine as Cosmic Law would allow. Through the I AM Presence, a maximum degree of purging occurred within the hearts and minds of every person on Earth. This cleared the way for the amplification of the aspects of the Divine Masculine.

On July 7th, we experienced a Full Moon Lunar Eclipse. This was the first in a series of three eclipses that will take place. The second will be the New Moon Solar Eclipse on July 22nd, and another Full Moon Lunar Eclipse that will take place August 6th. Spiritual astrologers acknowledge that the effects of these eclipses will be profound and life-changing for both Humanity and Planet Earth.

The planetary alignments associated with the July 7th eclipse empowered the manifestation of the Divine Masculine and greatly enhanced the masculine momentum of Divine Love. This is an aspect of the Divine Masculine that has been suppressed for a very long time. For Michael Jackson's memorial service to be held in Los Angeles, California, on that day was significant and powerful.

My family and I were in Los Angeles on July 7th. We were there to attend the 100th birthday party of our Aunt Marie. Our trip had been planned months in advance, but nothing is happening by accident. As we watched the memorial service for Michael Jackson on television, we joined in consciousness with more than one billion people around the world who were also watching this event. The memorial service focused on the aspects of the Divine Masculine that Michael Jackson represented to so many

millions of people.

From the time he was a child, Michael's music and his unique dancing ability thrilled and uplifted the hearts of people all over the world. His albums broke all records and reached an all time high for global sales. His compassion and genuine love for Humanity is evident in his many good works. He is listed in the Guinness Book of World Records as the celebrity who has donated the most money to charities. In 1992, Michael had a world tour that was titled after his album "Dangerous." This tour included 89 performances, and all of the proceeds were donated to charities. Michael's deep love and compassion for the suffering peoples of the world are reflected in both his actions and his music. His songs "We Are The World" and "Heal The World" reflect this Truth.

On July 7th, with an estimated one billion people focusing on what they loved most about Michael Jackson, a cup of Humanity's collective consciousness was formed that enveloped the entire planet. Through the unified efforts of embodied Lightworkers and the entire Company of Heaven, the Light of God expanded through every person's Heart Flame. During this global event, the Love within the Divine Masculine and the Power within the Divine Feminine were restored in every facet of Life.

The Divine Masculine has always been associated with Power and the Divine Feminine has always been associated with Love. What we are seeing now is the Divine Masculine's Power being balanced with Masculine Divine Love, and the Divine Feminine's Love being balanced with Feminine Divine Power. This completes the preparation for the full integration of the I AM Presence within every person's Heart Flame. This is a moment we have been working toward for aeons of time.

On July 22nd, there will be a very powerful New Moon Solar Eclipse. This is also the day that is celebrated as Mary Magdalene's Feast Day. Mary Magdalene represents the Love Nature of Christ Consciousness, and she has held the sacred space for the return and balance of the Divine Feminine for millennia. On this day, the newly empowered Divine Masculine and Divine Feminine within every man, woman, and child on Earth will be raised into the highest frequencies of 5th-Dimensional Solar Light that we can endure. This is the initial impulse of the Transfiguration of the masses of Humanity from 4th-Dimensional carbon-based Human Beings into 5th-Dimensional crystalline-based Solar Light Beings.

From that moment forth, Humanity's creative faculties of thought and feeling will be greatly enhanced. Our ability to cocreate the patterns of perfection for the New Earth will be amplified a thousandfold. This critical event will occur in perfect Divine Order for the next phase of the Divine Plan.

A global activity of Light is being orchestrated by Lightworkers and the Company of Heaven for July 28, 2009, at 3:19 p.m. Pacific Daylight Time, for one hour. This is the second phase of a powerful event called "Fire the Grid." The full details of this event are posted on the website: www.firethegrid.com . I will give you some brief excerpts of that information:

"Fire the Grid is all about waking Humanity up so that we become conscious individual cells of Light. Each cell of Light radiates not only in itself, but for others as well. The second phase of Fire the Grid is about using the power of "I" to unite once again to become "WE."

“We will once again draw the energy of the day through us and pass it onward to Creation. This is the energy of pure potential, pure love, pure abundance and of pure creative ability. This is the united energy of millions of humans concentrating on one purpose for one hour as one mind. We will sit in contemplation of the world that will be. This is an hour of Earthly creation with the highest degree of pure intention.

“Use meditation, prayer, thought, music, intention or any tool of your choosing to manifest the world we so desire into being. Imagine millions of humans sitting, taking a stand for something better; a world of equality of balance of harmony and joy. We will gather for one hour and hold the vision of a world fed, a world of abundance for all, a world of joyful experiences.

“This world holds pure potential for all humans. With this in mind, set about seeing in your mind what that world looks like, see green fields, beautiful clear rivers and clean air. Now see abundance for everyone, see people smiling, happy, well fed, well cared for. See humans sharing and cooperating. What does that look like, you ask? Simply imagine it. Really see it in your mind. The imagination is the paintbrush of our creations. See it here during this very special energy time. See it here and dream it into being. We will collectively see it and dream it into being.

“Remember you are not alone; there are millions of us intending this new world into place. Now put details into your dream, see all of the beauty you desire. Add color and delight. The more detailed your dream, the more tangible we make our intention. See the people of the world living in harmony not only with each other but with the planet itself. See engineering taking a turn to work with nature for the betterment of both Humanity and the Earth itself, working together for the betterment of all.

“See people all sharing in a plan to challenge the old ideas and incorporate new, better, healthier ideas. The winds of change can be directed, and this is our opportunity to consciously choose that direction. It is the time of a great gathering, a uniting of minds to create a better way, a way without exclusion. We can change the world. It begins with our hearts and minds.” (end quote)

On August 6th, we will experience the final eclipse in this series. This will be a Full Moon Lunar Eclipse. This eclipse will intensify all of the activities of Light that have taken place since the Solstice, and it will greatly empower the patterns of perfection for the New Earth that will be cocreated by Humanity during the Fire the Grid event. This eclipse will pave the way for the monumental influx of Light that will take place August 15-20, 2009, during the 22nd anniversary of Harmonic Convergence.

THE NEED OF THE HOUR

The Company of Heaven has assured us that the meltdown that is occurring in the global economy is a necessary part of Humanity’s cleansing process. For aeons of time, our monetary system has been used to manipulate, control, dominate, and abuse the peoples of the world. Now that the archetypes for God’s Infinite Abundance and Eternal Peace have been anchored in the physical plane, everything that conflicts with those patterns of perfection is being pushed to the surface to be healed and transmuted into Light.

There are people in positions of power around the planet who are scrambling to try and hold on to the old monetary system, which is crumbling before our very eyes. This obsolete paradigm was based on greed, selfishness, corruption, and the abuse of

power. These behavior patterns cannot and will not be sustained within the 5th-Dimensional frequencies of the New Earth. Too many people have awakened, and as a result of this monumental shift of consciousness, the Light of God has reclaimed this Earth.

Fortunately, there are also people in positions of power who are very aware of what is taking place. These enlightened souls are cocreating a new monetary system. This system will be based on integrity, generosity, fairness, compassion, and the highest good for all concerned. It will rise out of the ashes of our obsolete monetary system like a mighty Phoenix.

In order for the pain and suffering involved with the collapse of the old monetary system to be cleared and transmuted as quickly as possible, Lightworkers are being called into action. Our unified efforts will allow this purging process to be accomplished much sooner than seems possible from outer appearances. Many experts believe the painful effects of the present purging of our global economy will take years to overcome. But the Company of Heaven has assured us that the unified efforts of the Lightworkers can complete this process "in the twinkling of an eye."

Beloved Ones, accomplishing this mighty feat is the greatest need of the hour.

Once this facet of the Divine Plan is complete, the patterns of perfection for the New Earth will easily expand through the hearts and minds of all Humanity. This will enable our Divine Birthright to be restored. That Birthright is the perpetual flow of God's Infinite Abundance and Eternal Peace.

A Divine Plan has been set in motion to accomplish this vitally important mission. The Company of Heaven is invoking Lightworkers around the world to come together both physically and in consciousness to fulfill this plan. If you are reading these words, your I AM Presence is revealing that you have a part to play in this unfolding Divine Plan.

Listen to your heart. Your I AM Presence will guide you unerringly. Your part of the plan will be revealed to you. You will know in your heart-of-hearts how you can best add to the Light of the world during this Cosmic Opportunity. When you respond to your heart's call, you will be God in Action, and you will fulfill your part of the plan by quickly transmuting the surfacing negativity.

THE DIVINE PLAN

In order to accomplish this facet of the Divine Plan, our Father-Mother God and the Beings of Light in the Realms of Illumined Truth are sending forth a Clarion Call to all embodied Lightworkers. We are being asked to gather within the portal of the most powerful 5th-Dimensional frequencies of healing and transmutation on Earth. This Portal of Light in Tucson, Arizona, is the location on the planet where the Flame of Healing Through the Power of Infinite Transmutation is projected from the core of Creation into the center of the Earth. From the heart of Mother Earth, this Sacred Fire expands through the Crystal Grid System to bless all Life.

The Flame of Healing Through the Power of Infinite Transmutation is a resplendent emerald green flame with a violet radiance. It is the most powerful frequency of healing and transmutation on Earth, and it is the instrument through which Humanity's surfacing miscreations will be transmuted into Light at a greatly accelerated pace.

The Company of Heaven is asking Lightworkers from all over the world to gather within this Portal of Light to unite our Heart Flames. Together we will form a mighty transformer through which the Light of God will flow to accomplish the most powerful healing and transmuting of Humanity's miscreation ever to manifest in the history of time.

It is critical that Lightworkers from around the world be physically present in order to form this transformer. All of the Lightworkers who have been prepared to serve in this wondrous way on behalf of Humanity and all Life on this sweet Earth will know who they are through the inner promptings of their heart. Listen to your heart, and Trust your inner guidance. Your Light is urgently needed.

In addition to those inspired to be physically present, there will be Lightworkers who will join in consciousness from points of Light around the world. These Lightworkers will project the Light flowing through their Heart Flames into the Portal of Light where the Lightworkers are physically gathered; thus our unified efforts will expand a thousand times a thousandfold.

Every Lightworker will be in his or her right and perfect place. No facet of this Divine Plan is any more important than another. What is important, is that we respond to whatever our I AM Presence is guiding us to do. We must Trust and KNOW that if we are being guided to be physically present within the Portal of Healing Through the Power of Infinite Transmutation, then our I AM Presence and the Company of Heaven will assist us in paving the way. This is true whether we need assistance with time, energy, or money to accomplish this facet of our Divine Mission.

The vehicle that will be used for this gathering of Lightworkers is the 23rd Annual World Congress on Illumination. This event will take place August 15-20, 2009, during the 22nd anniversary of Harmonic Convergence. We will gather at the beautiful Loews Ventana Canyon Resort in Tucson, Arizona. This exquisite resort exists within the heart of the Portal of Healing Through the Power of Infinite Transmutation. 4. Sacred Gaiametry: Sacred Geometry for Personal Transformation

An article By Jim Albani

*"The real voyage of discovery consists not
in seeking new lands but seeing with new eyes."
Marcel Proust, 1871 - 1922, French novelist*

*"Living in the world without insight into the hidden
laws of nature is like not knowing the language of
the country in which one was born."*

All is energy!
 All is vibration!
 All is frequency!
 All is geometry!

In our reality, energy, vibration or frequency all range from a high of God/Goddess to a low of matter. Rising from matter we have levels of sound, light and the unnamed; which may include intention. All of these are organized in patterns and these patterns are the essence of Sacred Geometry. Sacred Geometry is the organizational basis of all that exists, has existed and will exist.

Found within these patterns are both two and three dimensional shapes which carry archetypal memories. The pineal gland holds the memories of these archetypal experiences and serves as an 'akashic record' within for each of us. The akashic records are often described as a huge library in the ethers containing all of the experiences of all souls through all incarnations. The pineal gland is the master gland containing all of the records for an individual's various incarnations.

For some a study of sacred geometry is a study of sacred sites such as Machu Picchu, Tikal, the Great Pyramid or Serpent Mound. For others it is a study of architecture found in the churches of Europe. Still others explore sacred geometry to travel to other dimensions.

The wisdom of the Masculine Mystery Schools of Geometry combined with the Feminine Mystery Schools of the Earth create a variation termed Sacred Gaiametry (Gaia being the feminine form of Geo). Gaiametry studies the patterns of sacred geometry and pulls the power and meaning of those dimensions into our lives now. It is a fifth dimensional experience best described by looking at the concepts of third and fifth dimensional ascension. In third dimensional ascension we die and go to heaven whereas in fifth dimensional ascension we bring heaven to this earth walk. Thus, Sacred Gaiametry brings other dimensions to this 3D reality.

Sacred Gaiametry is supported by the seventh ray and is described by Djwhal Khul as the "ray of the Divine Ceremonial." It provides insight into the true meaning of "Law and Order by governing the relationship between spirit and matter and the working of the one through the other." Seventh ray energy is connected with the channeling and expression of the Life Force into and through substance of all kinds. St. Germain is the ascended master guiding the seventh ray.

Sacred Gaiametry takes the Universal Law "As above, so below. As below, so above," and restates it to say "As inside, so outside. As outside, so inside." This fifth dimensional understanding recognizes the 'god within' each of us and the 'knowing' that all work begins within each of us. We must heal ourselves first and this experience, in turn, will heal others.

A few of the shapes and forms to explore and experience are: circle, vesica pisces, tre-vesica, platonic solids, star tetrahedron, and star octahedron. The circle teaches us of the principles of unity, equality and expansion. Many cultures celebrate this form with circle dances, medicine wheels and council meetings.

The vesica pisces has many teachings. One is the relationship of surrender, trust and gratitude. It is also a model for growth and healing --- birth and renewal.

Detachment and the 'witness position' are illustrated by the three intersecting circles of the tre-vesica. Detaching from ourselves and others and witnessing our interactions as a neutral third party is a needed mastery for the evolution of our minds.

Each of the five platonic solids carries special teachings. The tetrahedron invokes the power of manifestation and the cube grounds that creation in our bodies and this reality. **Our core heart is found in the octahedron as an expression of self-love and compassion.** Prayer is invoked in the form of the icosahedron. The twelve faces of 'God within' are discovered in the dodecahedron.

The star tetrahedron is a wonderful metaphor for us to work with and understand. It is two tetrahedrons joining and becoming one. One of the tetrahedrons represents heaven and is moving downward while the other tetrahedron represents earth and is moving upward. As they become one the star tetrahedron is formed with an octahedron internally present. **The octahedron is the symbol for our heart. Thus, the metaphor is: "Heaven and earth join to form heart."** Each of us is a star tetrahedron. A combination of heaven and earth whose expression is us, expressions of heart.

The number thirteen plays an important role in Sacred Gaiametry. Buckminster Fuller's demonstration of "closest packing spheres" illustrates twelve spheres strategically placed around one sphere. All twelve touch the 'one' and all of the centers are equidistant from the center of the 'one.' The concept of 'twelve around one' manifests itself in many different ways: the twelve apostles and Jesus, the twelve meridians around each of our bodies, the twelve signs of the zodiac around each of us, and many more.

Four of the five platonic solids radiate the number thirteen. The cube and octahedron have twelve edges or lines surrounding one center. The icosahedron has twelve corners around one and the dodecahedron has twelve faces around one. The only solid not supporting this is the tetrahedron and when two tetrahedrons are joined (star tetrahedron) there are twelve edges around one. Sacred Gaiametry explores all of these concepts and then brings it into this reality. Each form, each teaching, each realization and each experience asks: "How can I use this information on this earth walk?" As our journeys expand, our remembering is initiated.
